

SEPTEMBER 2016

VOL-11

A monthly e-newsletter by BARANAGAR MUNICIPALITY

From Chairman's Desk

“A sustainable world means working together to create prosperity for all.”

With the Best wishes to our beloved citizens for this Festive seasons which brings Joy and Opportunity to celebrate to the People throughout the Country irrespective of Cast Creed, Social Status we publish this edition of news Letter which carries the report of Our Progress Work.

India is the only country of the world where people of all religion and beliefs have been living peacefully for a long time. India, a multi-religious, multilingual and multi-racial country, has always 'enjoyed the essential unity of culture amidst diversities that kept her people united..India is a vast country where people of different religions and communities live side by side as we wish to make sound progress in the socio-economic, political and scientific spheres, communal harmony has to be ensured as a permanent feature of life. The importance of India as a large nation lies in its Unity. Unity is India's strength and Unity in Diversity is the most important feature. It is said that "United we stand, divided we fall". By union the smallest states thrive, by discord the greatest are destroyed. The economic progress of India is mainly on account of the feeling of unity or oneness among every Indian. Today, India has emerged as a major economic power and has secured its position among the top 10 largest economy in the world both in terms of Purchasing Power Parity (PPP) and Notional GDP. In every walk of life we find that it is our unity that gives us strength. A united country is respected in the eyes of others. Adequate measures should be taken to remove the social and economic inequalities to ensure unity among various sections of the society also beside ensuring unity between different religious community which may actually bring about peace. If there is peace and harmony in India, only then, India as nations can go forward. To grow more powerful, aggressive and prosperous, we should utilize yet protect the nature or so called natural resources. The utilization of the natural resources made the country in every sector. Change or progress is called development. It is important to all species, especially to humans but development cannot be made easily. We need machines, money, material and united manpower or human resources having unity of thought and action as well. All these factors have proven to be a key factor for development of a country economically and in all other related spheres.

Thanks and regards.

Progress Update:-*Beautification of Park:- Schemes of Three park are projected for Beautification at Baranagar for the year 2015-16 .Proposals for beautification of 3 Parks at Municipal Campus, behind Sinthee Circus Maidan and Deshapriya Nagar Colony has been made after vetting from MED and DPR for them is submitted to Municipal Affairs Department for approval.
